

SANDEEP KUMAR MAHTO

Software Engineer with 2.5+ years of experience in full-stack development using Java, Spring Boot, React.js, and RESTful APIs. Proven ability to design, develop, test, and deploy scalable web applications following microservices architecture and Agile practices. Hands-on experience with Docker, CI/CD pipelines, Selenium automation, and cloud deployment (AWS). Strong problem-solving skills with a focus on performance, security, and clean code.

WORK EXPERIENCE

Infinite Computer Solutions

Associate Software Engineer

Aug 2023 - Present

- Developed scalable full-stack web applications using React.js and Spring Boot.
- Designed and implemented RESTful APIs for seamless frontend-backend communication.
- Implemented JWT-based authentication and role-based access control using Spring Security.
- Automated unit and regression testing using Selenium and TestNG.
- Integrated automated test suites into CI/CD pipelines using Jenkins.
- Containerized applications using Docker for consistency and reliability.
- Collaborated with cross-functional teams in an Agile/Scrum environment.

EDUCATION

Krishna Institute of Technology

Bachelor of Technology in Computer Science and Engineering - 8.210

Aug- 2019 - June - 2023

- Relevant Coursework: Structural Design, Project Management

RSSD Sarvodaya Vidyalaya Inter College-State Board

Secondary School (X) - 89%

July 2015 - June- 20216

Senior Secondary (XII) - 78%

July 2017 - Jun- 2018

PROJECTS

Ecommerce Website (Java Spring Boot + React.js)

- Product Catalog & Search: Developed dynamic product listing pages with filtering and search functionality using React.js and REST APIs.
- User Authentication & Authorization: Implemented secure login/signup flows with Spring Security and JWT tokens, including role-based access control for admin and customer views.
- Shopping Cart & Checkout: Built cart management features allowing users to add/remove items, calculate totals, and proceed to checkout.
- Order Processing & Tracking: Designed backend logic to handle order placement, status updates, and order history retrieval.
- CRUD Operations for Admin Panel: Enabled product management (add/edit/delete), user profile updates.
- API Integration: Created RESTful APIs for seamless communication between frontend and backend services.
- Testing & CI/CD: Automated unit and regression testing used selenium with java and TestNG framework.

E-Commerce Web Application (Amazon Clone)

Feb- 2024 - July- 2024

- Designed a full-stack e-commerce platform from scratch with robust product catalog and search functionality.
- Implemented secure user authentication and authorization using Spring Security and JWT.
- Developed seamless shopping cart and checkout workflows with accurate price calculation and payment processing.
- Established a scalable backend infrastructure for order processing and tracking.
- Created intuitive admin CRUD modules for product and user management.
- Automated testing using Selenium and TestNG and integrated tests into CI/CD pipelines.

Microservices-Based Quiz Application

Aug- 2024 - Mar-2025

- Designed a scalable quiz system with multiple categories and difficulty levels.
- Built independent Quiz and User Services with secure JWT authentication.
- Implemented Spring Cloud Gateway and Eureka for service discovery and routing.
- Wrote unit and integration tests using JUnit and Mockito.
- Dockerized microservices for isolated deployment and horizontal scalability.

SKILLS

- Proficient in Java, JavaScript, and SQL programming languages.
- Experienced in using Spring Boot, Spring Security, Hibernate, React.js, Tailwind CSS, and Bootstrap.
- Skilled in utilizing Git, Jenkins, JIRA, Postman, Docker, AWS, and Maven.
- Familiar with MySQL and PostgreSQL databases.
- Knowledgeable in REST APIs, Microservices, Agile/Scrum, CI/CD, JWT Authentication, Unit & Integration Testing.

CERTIFICATE

Master Java Spring Development

- Completed a comprehensive certification program covering: Core Java, JDBC, Hibernate, JSP, Servlets, Spring Boot, Spring Security, and Spring REST APIs.
- Hands-on experience with Docker, AWS cloud services, and building scalable applications.
- Developed secure, production-ready microservices with JWT authentication and role-based access control.
- Worked with Docker and AWS to deploy scalable applications in cloud environments.

React.js Fundamentals & Advanced Development

- Completed an in-depth React.js certification covering component lifecycle, hooks, state management, and performance optimization.
- Built a practical project demonstrating dynamic UI rendering, API integration, and responsive design using React.js.
- Gained hands-on experience with advanced concepts like Redux, React Router, and custom hooks.

LANGUAGE

Java

Hindi, English Advanced
